

✓ Troax Box

Troax Maxi and Mini Boxes are free-standing storage cages that are suitable for storing hazardous materials and protecting against theft or vandalism.

Boxes come in 6 standard sizes and are constructed using UX 450 mesh panels. Panels can easily be modified on-site if your application should change.

A galvanized finish makes the Box ideal for outdoor use, but it can also be supplied with a powder coat finish for indoor use. All Troax Maxi Boxes are supplied with hinged double doors that open 180 degrees, allowing for easy forklift or pallet truck access. Mini Boxes are supplied with a hinged single door with a padlock hasp.

The boxes are quick and easy to install and also provide direct visibility of items in storage.

FACTS

Art no	Width (mm)	Height (mm)	Weight (mm)
36300608	2200	2200	0
36300508	2200	2200	0
36300408	2200	2200	0
36300308	2200	2200	0
36300208	2200	2200	0
36300108	2200	2200	0

Inside height 2200 mm.
