

✓ Mesh Panel UR 325

UR 325 panels have a mesh aperture of 25x25mm and are an ideal solution for providing a secure work environment.

Panels are constructed of steel mesh that is welded to a tubular frame, giving supreme protection against falling goods from pallet racks.

The Anti Collapse panel system is an effective way to protect walkways and pallet rack aisles from unnecessary accidents.

The 25 x 25mm mesh aperture is suitable for high security applications, such as storing aerosols, hazardous or high value goods.

FACTS

Art no	Width (mm)	Height (mm)	Weight (kg)
35070211	700	1100	4.15
35120211	1200	1100	6.37
35150211	1500	1100	7.67
35070201	700	2200	7.64
35120201	1200	2200	11.56
35150201	1500	2200	13.87

Frame dimensions:

Tube 19x19mm

Wire dimensions:

2,5mm vert.
2,5mm horizont.

Mesh size:

25x25mm
